

VAC-CON
MORE POWER TO YOU

**EXCLUSIVE
TECHNOLOGY**
leads THE WAY.

**THE INDUSTRIAL
VACUUM
LOADER**

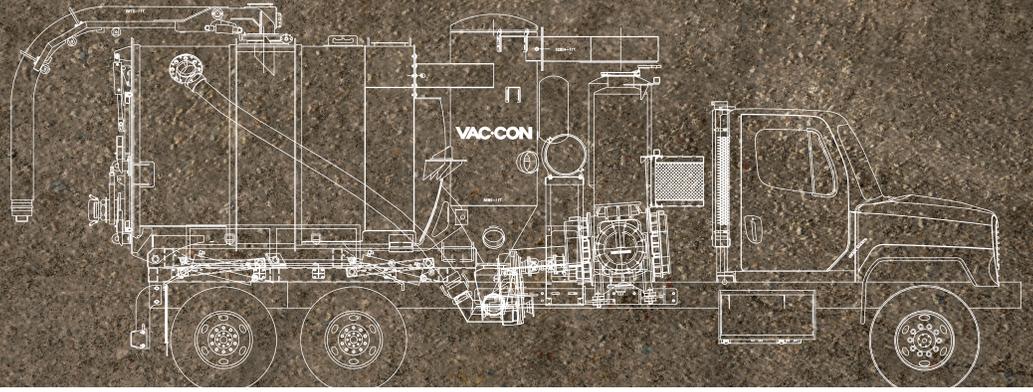

loads MORE, FASTER,
**KEEPING YOU
PRODUCTIVE**

**DESIGNED TO OUTPERFORM OTHER
MACHINES FROM THE GROUND UP.**

With options like the exclusive Automatic Material Return System and Hi-Dump, innovative technology and superior airflow efficiency come standard on Vac-Con Industrial Vacuum Loaders. These machines deliver world-class performance while saving you money, time, and effort. Simple to operate and maintain, our single mode machines can recover wet or dry material with up to 28" Hg. Equipped to handle the toughest jobs, these machines are right at home in the harshest environments.

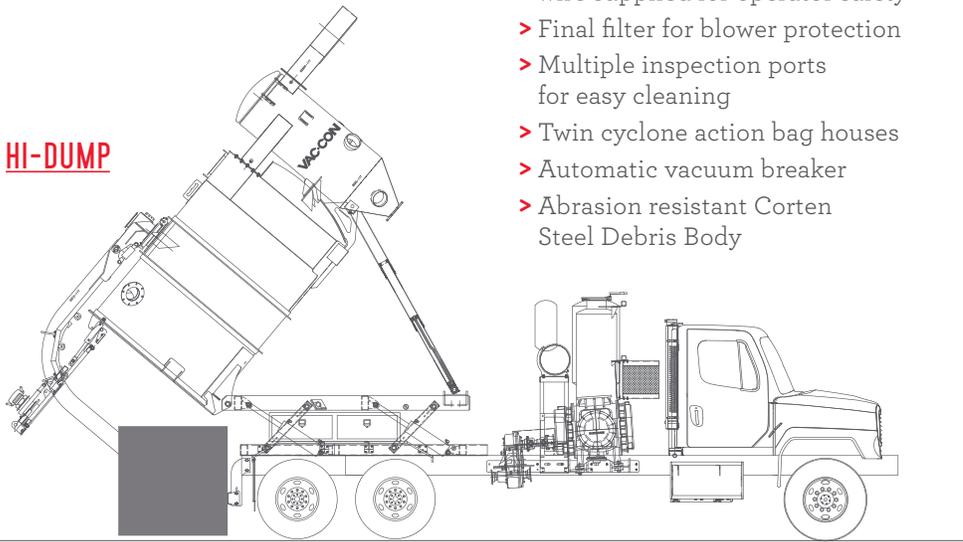

VAC-CON INDUSTRIAL VACUUM LOADER

VEHICLE SPECIFICATIONS

- > High performance airflow by design - transfer case driven blowers that develop maximum vacuum to 28" Hg and up to 6,300 CFM
- > Wet and dry filtration in the same chamber
- > Reinforced Corten Steel Debris Body with 50° dump angle
- > Premium hydraulic rear door locks and opener
- > Optional hydraulic rear boom available
- > Optional hydroexcavation package - 20 GPM @ 3,000 PSI and 250 to 500 gallons of water available.
- > Electric tank vibrator
 - > Optional hydraulic driven tank vibrator available
- > Operator-friendly control panel and instrumentation
- > Manual selection valve allows the operator to choose between 18" Hg and 28" Hg of vacuum
- > Grounding post and ground wire supplied for operator safety
- > Final filter for blower protection
- > Multiple inspection ports for easy cleaning
- > Twin cyclone action bag houses
- > Automatic vacuum breaker
- > Abrasion resistant Corten Steel Debris Body
- > Air cannon for simplified filter purging - exclusive state-of-the-art automatic material return system with isolation valves for better air cannon performance.
- > Operator selection switch for automatic material return sequence timing for liquids, heavy and fine materials for higher filtration performance
- > Material return hoppers are self-cleaning and require minimal maintenance
- > High-quality wireless remote control system can operate truck from ¼ mile away with line of sight to the truck
- > Wireless remote control system has skip frequency technology and will never interfere with other frequencies
- > Inspection door for access to blower lobes
- > Equipped with fold down ladder and personal tie-off points for securing the maintenance operators while performing maintenance on the truck
- > Two stainless steel float balls for over-fill protection when vacuuming liquids

Vac-Con trucks are safe, durable, easy to operate and outperform the competition. A dedicated nationwide dealer network, backed by our **One Touch Customer Service** support program is there to deliver **More Power to You** with every machine.
