

**VAC·CON**

**MORE POWER TO YOU**

# THE POWERFUL XX-CAVATOR

*is tough enough for*  
**EVERY JOB.**  
*MAKING YOUR JOB*  
*a lot less* **TOUGH.**

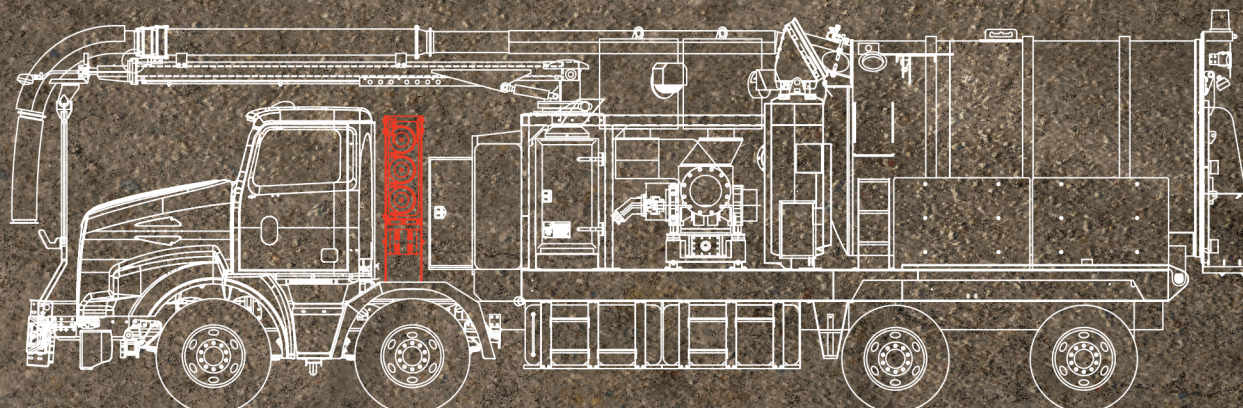

**BUILT TO BE THE TOUGHEST, MOST FLEXIBLE  
AND MOST FORGIVING IN ITS CLASS.**

Vac-Con's XX-Cavator™ is simply a beast on any project, but is forgiving and kind to the one operating and maintaining it. Able to withstand extreme climates and temperatures, the XX-Cavator™ is a constant worker. Special insulation and recirculation features insure freedom from lock ups and with the measured fuel savings of 50 liters per day, the cost of doing the job goes down, while productivity goes up.

Vac-Con's efficient engineering enables it to produce very low noise levels, while at the same time allowing for low RPM and high vacuum. The flexibility you need, with the power to stay up and running.

# VAC-CON XX-CAVATOR™

## VEHICLE SPECIFICATIONS

### FEATURES

- > Dual 721 Roots blowers
  - > 7,000 CFM
  - > 27" vacuum
- > Dual cyclone separators
- > Hydrostatic drive - vacuum and water
- > Front telescopic boom
  - > Up to 180° rotation
  - > 6' or 10' front-mount option (metric: 1.83m or 3.05m)
- > Aluminum diamond plate storage boxes and cabinets
- > Cross-linked polyethylene water tanks
  - > Up to 900 gallons
  - > 10-year warranty
- > 20 GPM 4,000 PSI water pump
- > Automatic vacuum breaker that shuts down 100% of the airflow to the vacuum system as well as preventing carryover when transporting material.
  - > Additional automatic open to atmosphere valve relieves the debris tank/vacuum system of vacuum for operator safety
- > Electric rewind retractable reel, high pressure wand, rotating nozzle with 100' of ½" hose
- > 16 cubic yard Corten® steel debris body with 5-year warranty

- > Low pressure hand gun with quick connect at pump with 25' of ½" hose
- > Hydraulic opening flat rear door/hydraulic door locks/¾ opening flat rear door
- > Control panel cabinet/passenger side aluminum diamond plate (35" x 14" x 24") (metric: .89m x .36m x .61m)
- > Water pump and hose reel cabinet/passenger side aluminum diamond plate (51" x 20" x 30") (metric: 1.3m x .51m x .76m)
- > Aluminum diamond plate storage box behind cab (16" x 42" x 96") (metric: .41m x 1.07m x 2.44m)
- > Emergency shut-off at front operator station and control box
- > Reflective striping/side and rear chevrons

### OPTIONS

- > Dual Robuschi blowers
  - > 7,000 CFM
  - > 28" vacuum
- > Air compressor systems up to 185 CFM @ 100-150 PSI with air knife
- > Wireless pendant control
- > Diesel-fired boilers, 410,000 BTUs and up

- > Diesel-fired heaters for storage boxes and cabinets
- > Insulated pump and control panel cabinets
- > Winter recirculation for water system
- > Air-purge
- > Hydraulic pump-off systems
- > Hydraulic fold-down pipe racks
- > Grounding cable
- > Electric vibrator
- > Rear door splash shield
- > Remote lube systems for module and chassis
- > Insulated water plumbing
- > PVC storage for long-handled tools
- > Heavy duty deflector plate, swing-mount
- > Heavy duty rubber hose for inlet and transition areas (may limit boom swing)
- > Debris body flush-out system
- > Heavy duty wear-back boom elbow
- > Safety lighting
- > Body inspection ports

Vac-Con trucks are safe, durable, easy to operate and outperform the competition. A dedicated nationwide dealer network, backed by our **One Touch Customer Service** support program is there to deliver **More Power to You** with every machine.
