PARTSDEPARTMENT@VAC-CON.COM

The Sewer Robotics C70 video nozzle features 8 cleaning jets, battery pack, LED lighting, WiFi and self-leveling HD camera for video recording and jetting 6" to 40" (150-1,000mm) pipelines.

Video is recorded on an SD-card inside the nozzle and downloaded to the included tablet via integrated WiFi as soon as the nozzle has returned to the manhole.

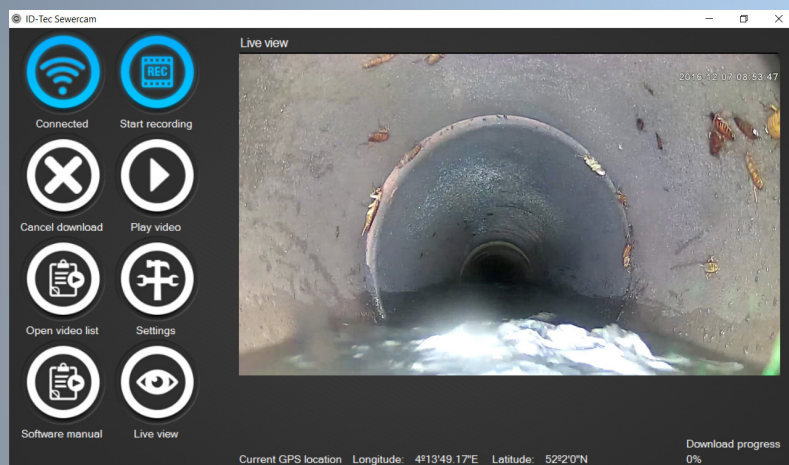

WWW.VAC-CON.COM/C70/

SAVE TIME

The WiFi-connected C70 Nozzle downloads the video as soon as the nozzle returns to the manhole.

Use the included tablet to view your pipeline conditions right away!
